on the risks of child and
early marriage

1 critical
Partnership in Action
to advance the fight against
child labour in Indonesia

ECLT's first **Affiliate Office**
bringing together private
sector representatives from
four commodities and the
public sector

2 National Action Plans
to end child labour in Uganda and
Malawi were supported by ECLT

The ECLT Foundation

The ECLT Foundation is committed to collaborative solutions for children and their families that combat the root causes of child labour in areas where tobacco is grown.

We advocate for strong policies, share best practices to multiply our impact, and engage rural families so they may benefit from farming while ensuring that their children are healthy, educated, safe from exploitation, and encouraged to reach their full potential.
